CASE STUDY
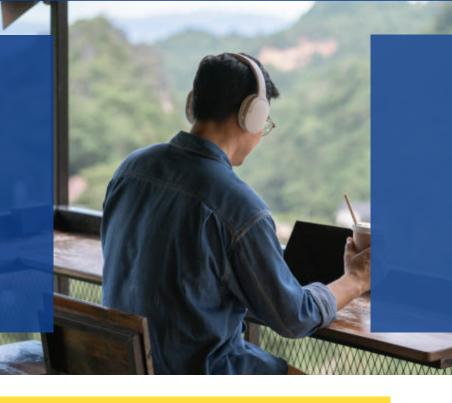

DELIVERING TRAINING *SECURELY* TO THE WORLD

THE CLIENT

REFORMED PRESBYTERIAN GLOBAL TRAINING NETWORK

Solutions Needed

Secured Learning Management System (LMS)

Secured Applicant Tracking System (ATS)

The Organization

Reformed Presbyterian Global Training Network is a leadership and development program from the Reformed Presbyterian Church of North America focused on developing leaders.

The Challenge

To provide secure, quality education to dispersed teams globally in sensitive geopolitical locations without compromising student's digital or physical identities.

What if your government or technology providers could NOT restrict your access to learning online, trace your location, or track your identify?

Would you be able to change your life and the lives of those in the community around you?

RPGTN knew of the potential for their STUDENTS to IMPACT their LOCAL COMMUNITIES.

They just needed a SECURE PLATFORM to engage 1000s of students and DELIVER COURSE CONTENT

Tools for Education Making a World of Difference

The Opportunity

Remove barriers for students who need to attend classes while protecting the students' identities. Combine beautiful, efficient online delivery of educational content without compromising personal security.

A Changing Landscape

We work with teams everyday who are securely training their people. Many of whom operate in sensitive environments. Compendium's solutions deploy in minutes and scale to meet every team's needs.

What drives us

We believe that technology should help people thrive. It should enhance their ability to operate, create, explore, educate, and innovate.
